

# DIRT TRAP AND OVERSPRAY NETTING

## FEATURES

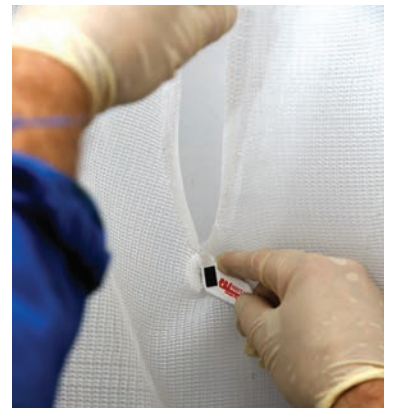

- Made of lint free monofilament nylon
- Open tack formulation stays tacky for months
- Contains flame retardant
- Size of roll 72" x 160'
- Available in black and white
- Eyelets on both top and bottom of roll
- Eyelets repeat every 2"

Netting can be used on the booth floor by securing with duct tape. Will trap overspray and dirt from getting in wet paint.

The white netting easily blends into the booth wall.

Cutting the netting is easy. Just use the #555 RBL snippet cutter blade.

Easy to install (like a shower curtain). Just hook netting thru the slits with our powerful neodymium magnets
